Taiwan Scanhero Auto ID Co., Ltd.

SCANHERO

Specification

Operational	
Light source	650 ± 10nm laser
Depth of scan field	10mm~450mm
Resolution	0.1mm 4mil
Scan speed	120 scans/ sec
Print contrast	= 45%
Decode capability	All Unidimensional bar code
Maintenance deadline	one year
Mechanical	
Length	95mm
Width	75mm
Depth	150mm
Weigh	255.5 g
System connector	Keyboard mouth , String mouth RS232 ,, USB
Keyboard connector	IBM PC/XT/AT&compatible,PS2-30,PS-55
Electrical	
Input voltage	DC+5v
Operating current	100 mA
Waiting current	100 mA
Environmentall	
Operating temperature	0°C to 40°C
Storage temperature	-30°C to 60°C
Operating Humidity	5%~90%
Storage Humidity	5%~95%
Light level	Up to 20000 Lux
Shock	1.5m drop onto concrete
